SIH'S ROLE RECOGNIZED AS HIGHEST EMPLOYMENT GENERATOR

The role of Shifa International Hospital Islamabad (SIH) as a contributor to the social and economic wellbeing of the communities has been recognized by a nomination as the highest employment generator by the Islamabad Chamber of Commerce & Industry (ICCI). Honorable Dr. Arif Alvi (President, Islamic Republic of Pakistan) presented the award to Mr. Taimoor Shah (Chief Operating Officer, SIH) at the ICCI 5th Business Excellence Awards Ceremony held at Aiwan-e-Saddar, Islamabad on July 21st, 2022. As part of the evaluation, the ICCI award committee has rigorous criteria for reviewing and collecting data from credible sources, i.e., Ministry of Labour & Manpower, Government of Pakistan, to assess the outlook and impact of an organisation as a leading employment generator.

The contribution as the largest employment generator is also coupled with providing equal employment opportunities and representation to all segments of society on the basis of merit and transparency. Shifa International Hospital also believes in empowering women by enabling them to pursue successful careers in the healthcare industry in a safe and conducive environment. At Shifa, women make up at least 35% of its workforce. Mr. Taimoor Shah (COO SIH) thanked Mr. Muhammad Shakeel Munir, President, Islamabad Chamber of Commerce & Industry (ICCI) for the award nomination and reiterated that Shifa will keep on working with ICCI and all relevant stakeholders on social and health initiatives.

SIH HOLDS HEPATITIS AWARENESS SEMINAR

بروقت تشخیص و علاج سے
زندگی بچائی جاسکتی ہے

World Hepatitis Day is observed each year on July 28th to raise awareness of viral hepatitis, which causes inflammation of the liver that leads to severe diseases and liver cancer. In order to spread awareness among the masses, Shifa International Hospital on World Hepatitis Day held an awareness seminar to highlight the need for bringing hepatitis care closer to the primary health facilities and communities so that people have better access to treatment and care. According to the World Health Organization, most acute hepatitis infections are mild and may go undetected. However, in some cases, they can cause complications and even death. As per the data of the WHO, in 2019, an estimated 78,000 people died worldwide as a result of complications from acute hepatitis A to E infections.
